

**LET'S
LOOK AT HOW
YOU MOVE**

Senator

WE BEGIN BY LOOKING AT YOU

With every Senator design comes a great deal of thought.

The design process begins way before pencil reaches paper, beginning with looking at you. We look at how you sit, reach, move and work to create a design which not only looks beautiful, but is a pleasure to use too.

Freeflex

—

I LIKE

THE WAY

YOU MOVE

Freeflex

Freeflex provides a clever and adaptable solution to support the user's movements in their working environment. Flexibility is central to the design of Freeflex, giving the user the freedom to make simple adjustments; to their seat height, seat depth and back height to achieve ultimate comfort.

Let's look at how you move

Freeflex

In designing Freeflex, special attention was paid to the user's natural pivot points, where they flex and where they don't. This inspired the development of a dynamic weight balancing tilting action along with an articulated flexing back, which intuitively encourages movement, while providing proper support in all positions.

Let's look at how you move

Freeflex

Freeflex is available in an array of colour choices with new combinations of dark grey and black components or light grey and dark grey components, to create inspirational spaces within workplaces.
